

BB

Long respected by bassists world-wide, the BB series has become a modern classic to players of music genre. Having evolved into a highly refined instrument through extensive artist feedback and improvements the series covers a wide range of models. Comfort and style crafted with high grade, resonate alder bodies are the foundation of the BB bolt on series.

Also available in fretless and left-hand configurations, the N4III is our basic model with two humbuckers and simple controls. The BBG4SII and BBG4AII add 4-control active electronics with the BBG4AII available with beautiful translucent finishes. The BBN5II, also available in a left-hand configuration, is the 5-string version of the N4III. Likewise, the BBG5S and BBG5A are 5-string versions of the BBG4SII and BBG4AII respectively. Featuring powerful Alnico humbucker pickups and 5-control electronics the BB Nathan East Model is similar to the BBN5A but adds a premium figured maple top and ebony fingerboard. All models feature bolt-on necks for powerful punch and exceptional sonic performance.

Nathan East Model

Amber Burst

• Active 5-Control System (NE/1500A)

The active control system featuring 3-band EQ gives the BB-series basses tremendous tonal versatility. The midrange EQ control is a presettable 3-position switch for fast, repeatable settings.

NEW

Michael Anthony Model

(Prototype)
Black Metallic

Michael Anthony (VAN HALEN)

http://www.vhlinks.com/links/Michael_Anthony/

Taking advantage of the long history between Michael and our original BB3000. We have taken the opportunity working with Michael to make several improvements to the original neck through design. The new design offers a newly shaped neck and neck heel together with a deeper cutaway for improved access to the upper registers. The new body shape, nickel hardware, Hipshopt D tuner and custom chili pepper inlays will certainly make history stand up and take notice of this new instrument.
