

ATTITUDE

An exciting collaboration with Billy Sheehan and our North Hollywood workshop lead to the development of the Attitude's Limited II. This bass is loaded with features and innovative details that are more commonly found on customized instruments. The DiMarzio pickups are connected to separate outputs allowing you to choose between combining the two pickup signals or amplifying them separately. Scalloped at the upper frets of the D and G strings, the all maple neck is also fitted with a Hipshot "D" Tuner to lower the bottom string from E down to a D.

The Attitude Plus provides bassists with a solid foundation with its single split style pickup. The Plus is available with either rosewood or maple fingerboard.

In commemoration of the Attitude lines 10th year we have issued a special edition 10th anniversary model. Available in Purple Metallic and Black metallic, the bass features position markers that are of Billy's fingerprints along with a plaque, which carries a unique serial number and Billy's signature.

Doug Pinnick (King's X)

Perry Richardson (Firehouse)
